

# RSC Education Events

## 2022-2023 School Year

For questions and to register for all events please contact Sarah Magyan, RSC Education Manager, at [Sarah@RegSciConsort.com](mailto:Sarah@RegSciConsort.com)

### Problem Solving Hack-a-Thon

When: December 6-8<sup>th</sup>

Where: Tom Ridge Environmental Center

RSVP starting November 1st

Join us in solving the most current environmental problems in the region! Students may work in teams or independently to solve “The Challenge” which will be revealed upon initiating the event, followed by lightning talks from experts in the field. Students will research and develop a prototype of their solution to be presented to RSC judges. Recognition will be given for the most creative and realistic solution to the environmental challenge.

### STEM in the Classroom Lesson Kits

Perform fun, hands-on experiments exploring the Science of Ice Cream! and Infectious Disease. Each lesson includes a kit of materials and video guide.

### Forensic Science Escape Room

When: February 21<sup>st</sup> & 22<sup>nd</sup>, March 7<sup>th</sup> & 8<sup>th</sup>

Where: Erie Art Museum

RSVP starting January 2<sup>nd</sup>

The Regional Science Consortium is excited to present the 6<sup>th</sup> Annual *Forensic Science Escape Room*! This event allows you to join us to escape the room by completing multiple hands-on forensic science lab activities and using critical thinking to solve the mystery!
