

Volunteer on Presque Isle State Park

with

Weed Warriors

***All are welcome to help protect Presque Isle State Park
from harmful invasive plants!***

Weed Warriors is a volunteer program that helps identify, monitor and remove invasive species from natural areas. Invasive plants crowd-out or outcompete native plants that indigenous wildlife and birds need to survive.

The Weed Warrior program is designed to accommodate anyone in the community that wants to get involved. It's a great opportunity for students to get service hours, for college students to gain field experience with invasive plant management, for educational field trips or for business/scout groups that are looking to give back to the community. You can help on a regular basis or at a one-time only event, follow our Facebook for pre-scheduled volunteer days, group event details and other fun plant information!
